BIG REWARD IS OFFERED

By Perry County Farmers' Protective Insurance Company

FOR ARREST OF INCENDIARIES.

The Perry County Farmers' Protective Insurance company, of Perry county, Ind., has offered a reward of \$100 cash to the person furnishing information that will lead to the arrest of the party or parties who set fire to the barn of William Sudarth, of Tolinport, and the barn belonging to Robert Quinlin, of Branchville, Perry county.

As stated in last week's News, John Robinson, and not Geo. McCall, was arrested, when the bloodhounds followed the trail to the home of the latter, after taking up the case on the site of Wm. Sudarth's burned barn. John Robinson, who has often evaded arrest, was arrested this time by the sheriff for seriously cutting a young man named Hawhee about two years ago. McCall was not arrested at the time, as several papers stated, and there is no warrant out now for his arrest.

Hunters Out in Force.

The bird law was out Sunday and Monday the hunters were out in force to bag the game, which seems to be plentiful in this section. The rabbits, as well as the partridge, will come in for a large share of the sportsman's fun.

Local sportsmen believe in going after the game while it is plentiful and most of them are out this week. Capt. J. H. Rowland is over in the Custer neighborhood and R. N. Hudson and Leon McGavock are out on the branch road this week in search of game.

Religious.

Rev. P. L. King delivered two forceful sermons at the Methodist church Sunday that very much impressed his congregation.

Rev. J. D. Bozeman, pastor of the First Baptist church of Campbellville, Ky., preached at the Baptist church morning and evening Sunday. Rev. Bozeman delivered two strong and logical sermons that were well received by the congregation and favorably commented on.

To My Patrons

I will be away several months taking a special course in surgery. Anyone wishing to make payments on their account will please settle with Short & Haynes, who have my books. My address will be 2900 Gambell St. St. Louis, Mo., care St. Louis College of Physicians and Surgeons. Write me if I can be of any service to you.

The Tobacco Buyers.

Tobacco buyers in this vicinity are not very active or numerous this year and the prices are not very flattering for the farmers. J. D. Brashear has bought a few crops in Hancock county for the American Tobacco company, and Henry Duncan has been looking over the crops in this county, for the same firm.

C. W. Moorman, this year, is buying with Chas. Beard, of Hardinsburg, it is understood.

Has Decided to Buy.

John Phelon has decided to enter the local tobacco market and has rented the large factory belonging to J. B. Pace, Jr., as suggested in the News two weeks ago. He stated to the News Monday that he will buy for himself. He will vacate the warehouse on Water street which he occupied last year.

As far as known at present, there will be only two buyers in the local market this year, the other being the American company.

Repairs at the Depot.

The Henderson Route bridge crew have completed the repairs on the trestle just above the depot. They have also repaired the stock pen and put a new floor in part of the depot.

CITIZENS OF PROMINENCE

In Irvington Regret the Arrest and Departure of Prof. and Mrs. McClure.

UNWILLING TO CREDIT CHARGES

To the Editor of the Breckenridge News:
In the last issue of your paper there appeared an article reflecting on the characters of Prof. McClure and wife, which seems to us to be very unjust. They have had in their charge for some time a Japanese girl who had become curiously and deservedly pained in as severe a manner as the circumstances demanded, as many a father has done his son. The reports that have been circulated in regard to this matter have done us all an injury that time alone can efface and we desire to protest against them. We wish to assert our confidence in Prof. McClure and wife and are not willing to believe in their cruelty. They have lived amongst us for some two years and attended strictly to their own business—that of school teaching. They did this to the satisfaction of nearly all their patrons and we deeply regret their loss. On the spur of the moment excitement was inflamed, and a warrant for their arrest was issued without the support of an affidavit from anyone. The wild rumors reached the ears of their attorney at Hardinsburg, who summoned them for a conference. At that meeting they were informed that reports of mob violence had reached that town, and they feeling that they were friendless and alone, they left the country. Such reports were without any foundation and we attach no blame to them for leaving. We, however, think they acted hastily, and had they returned would have found friends here to have upped them.

THE LOSS OF A GOOD WOMAN

Felt and Mourned By Many Friends in the Death of Mrs. Thos. Tousey.

BURIED AT HER OLD HOME.

Hardinsburg, Ky., Nov. 17.—(Special.)—Mrs. Thomas C. Tousey departed this life at her home in this place, on Tuesday, Nov. 16. She had been sick for only a short time and the end was not thought to be so near. The funeral services were conducted on Thursday morning by the Rev. Hynes, of Irvington, at the M. E. church South. The interment was in the Cloverport cemetery.

Mrs. Tousey was the daughter of Capt. J. H. Blythe and was born in Meade county, Nov. 23, 1856. In 1875 she was married to Thomas C. Tousey, at Cloverport, where they resided until about three years ago, when they moved to this place. One son, Ollie, was the result of the union. Mrs. Tousey was a consistent member of the M. E. church South for more than twenty years and a devoted Christian woman of beautiful character. She made many friends during her residence here who sincerely mourn her loss. She leaves a husband, mother, a son, Ollie, now in business at Henderson, a sister, Mrs. Jule Hardin, and two brothers, John and Thomas Blythe, who grieve at her death, but not as those without hope.

Are Dragging Their Bottoms.

The Ohio is lower at present than at any time during the past year. It is very difficult for the packets to run at all and the low-water boats are still in service in the Louisville and Evansville line, which is something unusual at this time of the year.

Changes Hands.

Irvington, Ky., Nov. 17.—(Special.)—G. T. Marshall has sold his livery stable to Tom Blythe for \$2,250. Mr. Blythe moved his family here yesterday and will occupy the Gardner cottage on Walnut street.

PROUD OF DAVE MOORMAN.

BAINBRIDGE, GR., NOV. 13, 1903.

MR. J. D. BABRAGE, Cloverport, Ky.

DEAR JOHN:—I see in the News of November 4, the picture of that old rooster that has been lost for some time, and you say "that the old rascal is crowing in Breckenridge county." It is a pleasant fact to know that he has come home to roost. Take good care of that old rooster, we will all be glad to have him again some time, especially in the fall of 1904.

That clever face shown in the picture of our old friend Dave, every citizen in Breckenridge county should be proud of his success, knowing that in him there is a noble spirit that will guard the interests that will be placed in his charge, a servant of the people, not a master.

Let the good work go on, Breckenridge county will be the banner county of the Western portion of the State yet. Best wishes, and may you live long and prosper.

Your friend,

F. P. HAYGOOD.

The Farmer's Friend.

In an address before a farmer's meeting in Christian county, Ind., one of the speakers said: "As a rule, the farmer has no firmer friend than the country press. The home paper is distinctly the farmer's own paper, supported directly and indirectly by farmers, who compose the backbone of the subscription list, and largely for what the enterprising merchant advertises. Now, brothers, let us not forget our friends. Let us see that our subscription is paid up to the first of January each year in advance if we can afford it. The man or the paper that fights my battles shall have my support. Another thing, the merchants who advertise are the ones who make it possible for them to get a good local paper, and men or firms who are too penurious to advertise and help the local press have no right to the farmers' patronage. I propose to go to a live advertiser and a man who will do his share in supporting a local paper, rather than to buy of a man who proposes to secure all and give nothing in return. If the farmers as a class would support their friends, the others would soon go out of business."

To Form New Association.

The Baptist churches of Breckenridge county will send delegates to a meeting to be held Nov. 27 and 28 at the Clover creek Baptist church for the purpose of organizing a new association. The meeting will open at 11 a. m. Friday, Nov. 27.

Oklahoma.

As seen by a man who lives there.

Carville, Okla., Nov. 4, 1903, Jas. D. Babbage, Esq., Cleveland, Ky., Dear Sir:

After reading Mr. C. P. Polk's letter in the News, in which he endeavors to describe Oklahoma and her products, I beg leave to explain more fully in regard to the products, as I have lived in the best part of the Territory for the past ten years.

As many of your readers know, I was reared three miles west of Hardinsburg, in Breckenridge county and came to Oklahoma at the time of the opening of the Cherokee Outlet. During this time have been over most of the Territory by wagon and have studied the soil and its products as carefully as anyone could. I am a farmer and, of course, am interested in soil and products.

I will state right here that Mr. Polk didn't see the best part of the country. By going to a poor or rough part of Oklahoma one can get about as good an idea of the Territory as he could of Kentucky by visiting the mountainous part of the State. Perry is in a rough part of Oklahoma while, if one travels west from that city, he will soon come to the vast level plains which extend for many miles to the north and west. Nearly all of the northern and western counties are very level and as fine lands for agricultural purposes as can be found anywhere. We have not failed on corn here in Wood county but one in ten years, and that year was one of our best wheat years, some yields being thirty-five bushels per acre. This year instead of the yield being from ten to fifteen bushels it was from fifteen to thirty. I had eighty acres myself from which I harvested 1700 bushels and received as high as 60 cents per bushel. Our corn is poor, making ten to thirty bushels per acre. There is no better place anywhere for hogs, as cholera is comparatively unknown. Oats last year made from fifty to eighty-three bushels to the acre.

As to our being able to grow a variety of crops, I here quote you a part of the Governor's report on diversification of crops: "Perhaps the greatest feature of Oklahoma is in the diversity of its products. No Western State in America has the farmer so great a variety of products to choose from as here in Oklahoma, and nowhere can he be more successful in agriculture, horticulture and stock raising."

Among the many things which are successfully produced upon Oklahoma lands are the following: Wheat, cotton, oats, Kaffir corn, castor beans, alfalfa, watermelons, cantaloupes, cabbage, turnips and the like. If Mr. Polk will come out and visit us we will cite him to a score or more of Breckenridge county people who are settled here in good homes and doing well. And who, while they love Kentucky and her people, have no desire to return there to live.

Now, Mr. Editor, I will close, and I promise, if you won't consign this letter to the waste basket, I will not bother you any more for a while. But if any readers of the News wish to know more about Oklahoma I will gladly tell them what I know of the country.

I remain yours with best wishes,
Delphos G. Harned,
Carville, Okla.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since I have been without Hood's Sarsaparilla. My father thinks he caught the rheumatism from me. I was troubled with rheumatism since I was a boy, and I know that it is the only medicine he can take that will enable him to take his place in the world." Miss Anna Dorr, St. Louis, Mo.

Thanksgiving Proclamation Issued By Gov. Beckham.

Frankfort, Ky., Nov. 18.—Gov. Beckham this morning issued the following Thanksgiving Day proclamation:

"Commonwealth of Kentucky, Executive Department.—No people on earth have more reason to be grateful to Almighty God for His benefactions and bounties than have the citizens of this great republic. In less than a century and a half it has grown to be the most splendid nation the world ever saw. Beginning its existence under grievous difficulties and struggling against powerful obstacles it has placed itself in the forefront of all countries and has taught the human race valuable lessons in the art of self-government, in progress, in development, in civilization and in the betterment of man's condition. Peace, plenty and prosperity have been given our people, and it is, therefore, a praiseworthy custom that national recognition and individual gratitude should be given to Him from whom these favors have come.

"In conformity to this custom I ap-

point Thursday, November 26, 1903, as a day of thanksgiving and respite throughout the Commonwealth of Kentucky, that our people, true to the spirit of this institution and thankful for their many blessings, may lay aside for the day their worldly concerns and give praise to the great and good author of all our happiness. Let Kentuckians praise Him, not alone for the grandeur of our nation, but also for the success and prosperity of our own great Commonwealth.

"Let us not, in imitation of the Pharisee and hypocrite, thank Him that we are not like other people, but let us in humble gratitude to Him rejoice that our State is not surpassed by any in the Union and that its people are as good, as brave, as generous and as patriotic as any on earth.

"In testimony whereof I have hereunto set my hand and caused the great seal of the Commonwealth to be affixed. Done at Frankfort, this 13th day of November, 1903, and in 112th of the Commonwealth.

"J. C. W. BECKHAM, Governor.
"By C. B. HILL, Secretary of State."

Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fremont, N. C. writes, July 5th, at Short & Haynes, Druggists.

Louisville, Nov. 13.—The executive committee of the constitution amendment met today and received the report of expenses and transacted other business of a routine nature. This proposition carried by 20,000.

The amendment allows every city and town in the state to have absolute control of its own municipal taxation. The money can be raised by license or the sale of franchises. The real estate of manufacturing concerns may be taxed and the machinery and stock exempted. It is hoped that from now on Kentucky will be able to offer exemption from taxation to new industrial concerns, which will bring them in from other states. It is expected that the ultimate effect of the adoption of the amendment will lower taxes, as it will bring more property into the state to be taxed.

Hawesville's New Factory.

Hawesville, Ky., Nov. 11.—The Carter tobacco factory is now being changed into a manufactory for the Kentucky plow fender, and nearly all the men interested live here. It is understood that the necessary machinery has been bought and will arrive as soon as the house can be arranged to accommodate it. Some of the people living very near the site have protested against it fearing their property will be despoiled and that the noise will distress them.

A Good Name.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Boonesville, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effectual. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by All Drug Co.

The Will of David Cole.

David Cole, of Crawford county, Ind., who died a few weeks ago, was one of the richest men in this section of the country. He owned 3,490 acres of land in Crawford county, Ind., and Meade county, Ky., and his estate is valued at \$150,000. Among his real estate were the two Blue River Islands in the Ohio river just above Leavenworth, the upper one of which he left to the U. B. church, of which he was a member. The balance of his estate is divided among his family of seven children. Cole started in life as a poor boy and earned his own money by chopping wood at 25 cents a cord. He became a land king and whenever he had a few spare dollars he would hunt up and purchase another farm.

Tobacco Situation in Hancock.

Hawesville, Ky., Nov. 11.—The low prices prevailing all over the country for the weed and the alarming publications in the various newspapers have caused many people here to believe that the Hawesville house will be dark this fall and winter. It was to have been opened for business on November 1, but even if there are any buyers going through the county they have not been heard of. The country barns are fairly bursting with as fine a crop as ever grew in this climate, and if it could be sold here nearly all the money of course would be expended in the county which would set things booming.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup making it quite pleasant to take. Mr. W. L. Roderick, of Poolsville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after-effects. For sale by Short & Haynes.

PUBLIC WOMEN

And public Speakers everywhere are very often troubled with a cough or some throat irritation which may lead to graver complications later on. A cough neglected may pave the way for the germs of consumption to enter the weakened system. There is no better preventive against this dread disease nor more certain medicine to cure a cough and at the same time to act as a sustaining tonic to build up the entire system than Dr. Pierce's Golden Medical Discovery, which purifies and enriches the blood. It increases the activity of the blood-making process, so that the body is abundantly supplied with the red corpuscles of health.

A prominent woman, who is very favorably known as an elocutionist, gives the following testimony:

Dr. R. V. PIERCE, Buffalo, N. Y.:

Dear Sir—I had a swollen gland in my neck which the doctor called Goitre. I had an operation performed which destroyed the goitre but left me with a cough and throat trouble. I have taken several bottles of your "Golden Medical Discovery," and find that it has helped me wonderfully. Doctors told me that I had consumption, but I have no trace of that horrible disease to-day, and owe my present health to your valuable medicine.

The Henderson Route handled over
40,000 people last month without a
scratch or a bump. This road is growing
in popular favor every day, and we
are glad to see it.

Will Pate is laying water mains on
Main street. Mr. Pate is to be com-
mended for his enterprise. It shows
that he has faith in himself and his
town. It's a small enterprise, but it is
a beginning, and that's good.

The Cloverport Real Estate and Im-
provement Company's statement ap-
pearing in our advertising columns, is
a good showing for the company consid-
ering the length of time the company
has been in business. This company
is a new feature in the business affairs
of Cloverport, and should receive the
hearty endorsement of every citizen who
has the welfare and improvement of his
town at heart. It helps to build homes
for people with small means, young
men who want homes and who have not
all the money to pay down. It's a home
builder and a rent saver. Besides giv-
ing the young men and older ones with
small means a chance, it is a good thing
for the man with money. The stock
will pay the investor from 8 to 10
per cent per annum, and is as good and
safe as any bank stock. Its loans are
all secured by real estate, and are per-
fectly secure and pay a good dividend.
Look over the town and see what this
company has done for the many hand-
some homes it has built.

We are glad to publish the article
signed by a number of the leading
citizens of Irvington in which they
say that rumors regarding the action
of Prof. and Mrs. McClure have been
greatly exaggerated and are misleading
and do the parties and the town a great in-
justice. We have no doubt but what
the matter has been greatly exaggerated,
as such things generally are, and the
community more or less worked
up without investigating thoroughly.
The mistake, in the whole affair was
in the Professor and his wife leaving
in the manner they did. They should
have remained at home and fought it
out in the courts if innocent. We un-
derstand that the matter is being a
religious turn and the churches are
becoming involved. This is a matter
of regret and should not be contin-
ued. Stop it right now before the
community gets into a wrangle that
will take years to overcome.

In a special issue devoted to "Modern
Aids to Printing" the Scientific Amer-
ican presents to its readers a fund of
information about an industry which
plays an important part in the life of
the people, but of which little is
known. The number describes in an
entertaining way the advances that
have been made in the printing art
within recent years and strikingly
shows the economic significance of the
press. Of the more important articles
in this issue may be mentioned an
instructive interview with Theodore
L. De Vinna, the master-printer of
America; an account of the influence
of mechanical typesetting as a labor
saver; a description of a modern news-
paper press which prints 150,000
copies per hour; an outline of book
binding which tells how books are sewed,
case-made, and embossed. The
number is dressed in an admirable
colored cover.

picture gallery and Miss Ada Stith

"The way to a man's heart is
through his stomach," an old saying
meaning that to win a man you must
feed him well.

If this is not true, it is still true
in another sense that the way to a
man's heart is through his stomach.
Many persons imagine that they have
heart disease when it is only indiges-
tion.

This is how it comes about. The
stomach distended by gas, crowds the
heart and gives the feeling that the
trouble is in the heart.

If you don't know that you have
heart trouble, try using Walther's Pe-
ptonized Port and see if it does not
relieve you--For sale by A. R. Fish-

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.
When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.
It is like the penny in the milk because it works and because there is something astonishing about it.
Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.
Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.
For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, I. e., a sample free.
Be sure that this picture in the form of a label is on the wrapper of every bottle of Scott's Emulsion you buy.

The woods and fields are full of men and boys with dogs and guns in pursuit of a few birds, the proportion standing at about three men in percent of one bird.
The man who will buy a vote and the man who will sell his vote compose a dangerous element and should be disfranchised and chained as felons. This discordant element wish to engender much of the political prejudice and hatred that every one regrets so much to see.

A Modern Science.

Osteopathy is a new science which is worthy of the investigation of every one who having health would keep it and every one who having lost it would regain it. It cures all curable diseases and a great many which have heretofore been regarded as incurable without the disagreeable effect which necessarily follows the taking of strong drugs.
It does not ruin the stomach in vain effort to reach deep seated diseases but goes right to the cause and removes it and allows nature to perform her functions unobstructed.

Your Uncle Fuller On

The Fiddlers' Contest.

Glenosene, Ky., Nov. 8, 1903. Editor of the Breckenridge News, Dear Sir:—I see in this week's issue of the News the account of the Old Fiddlers' contest. I, for one, say it was not old-fashioned music that won the prize. The winner played some old pieces but he played them up-to-date. I consider it one of the unfair things in which I have ever took part. Who ever heard of using sharp and flat in old fashioned music, and why did I make any difference how you held your fiddle just so you played old-fashioned music the old-fashioned way. I say if it was played with one inch of your bow and your fiddle on top of your head it was no one's business. I have had old-fashioned music for supper, breakfast and dinner for fifty years and I have never heard such playing called old-fashioned. I did not care so much for the prize but I always like to see people take what they call for. They advertised for one thing and it took another to win the prize. They say they had five judges. I don't know how many they had because I never saw them and if I had I wouldn't have known them. I hope for your next contest you will get old Noah and two or three of his boys to judge the contest. So wishing you all the best times that man can have, I remain,

Yours truly

Your Uncle Fuller (Louis Ashler).

SOLDIER BOYS SEND

GREETINGS TO FRIENDS.

San Francisco, Cal., Oct. 29, 1903. The Breckenridge News, Cloverport, Ky. Dear Sirs:—Having at last reached a point in my past year of life where I am at my leisure for a few minutes I will state I am glad that I have the opportunity. I have been traveling from coast to coast and from the north to the southern boundary and at present I am on the far western coast of the United States. I have been employed in the Quartermaster's Department for the Government and shall remain there some months to come. I have a very good paying position and am making plenty of money. My last trip has been recently from Omaha to San Francisco and I shall remain here only a few days. During my journey here I traveled over some very beautiful country and stopped in several large cities, such as Denver, Cheyenne, Ogden, and Sacramento, but found, for picturesque scenery, no Rockies very different in nature. But beauty and simplicity lies in the state of California, a fertile country with abundance of flowers

The Country Town.

It's common to sneer at the country town With its quiet streets and its peaceful air, Where the little river meanders down To be lost in the broad, blue sea somewhere, As we who think we are wise are lost In the roaring city that, like the sea, Has its ebb and flow, with its millions tossed As bubbles robbed of identity. There's fellowship in the country town, With its empty streets and its spreading trees, Where the country song-birds warble down At midnights as fair as man ever sees; Where the wind blows sweet from the fields near by, Where men know the names which their neighbors bear, Where a man is missed when he's gone to live With the peaceful ones who have ceased to care. There are joys out there in the country town That we of the city may never learn In the rush for money and for renown, Confronting strangers where'er we turn! Oh, wasn't God's world serene and fair In the country town 'ere we came away? And won't it be sweet to sleep out there, Far from the city's roar, some day?

POULTRY POINTERS.

Laying hens must have meat or milk. Always feed some whole grain at night.

Early hatched chickens usually make the best breeding fowls. Feeding a little at a time and often is better than overfeeding at any time. A liberal use of ground bone will correct the tendency to laying soft shelled eggs.

Keeping fowls on hard floors will frequently cause swollen feet and legs. They must have some loose ground to scratch over.

Turkeys must have a good range to be profitable. They are insect eaters by nature and need a good range in order to thrive well and grow economically.

After the ducks and geese are through laying the feathers should be picked regularly. The time to pick them is when the feathers are ripe and before the fowls begin to lose them.

What a True Scholar Is.

The scholar in the true sense is the man or woman for whom the schools have done their best. The scholar knows some one thing that he can carry his knowledge into action. With this he must have such knowledge of related subjects and of human life as will throw his own knowledge into proper perspective. Anything less than this is not scholarship. The man with knowledge and no perspective is a crank, a disturber of the peace, who needs a guardian to make his knowledge useful. The man who has common sense, but no special training, may be a fair citizen, but he can exert little influence that makes for progress. There may be a wisdom not of books, but it can be won by no easy process. To gain wisdom or skill, in school or out, is education. To do anything well requires special knowledge, and this is scholarship, whether attained in the university or in the school of life. It is the man who knows that has the right to speak. President David Starr Jordan is suggestive.

Epithet Too Suggestive. A man whose chief occupation is that of making translations is telling his friends about a woman who visited his place last week and said she was a nice looking girl, but her husband's grave, with some short, simple inscription on it.

He asked how she would like it as a translation. She inquired as to its meaning, and when he translated it as "I shall rise again," she said, in a panic, "No, no, mister; make it 'Rest in Peace'!"—New York Press.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by All Drug Cos.

Breach of Promise.

On last Wednesday Attorney Eugene C. Vance filed suit in the Hancock circuit court for Mrs. Nancy Gabbert against George W. Jarboe for \$5,500 damages for breach of promise to marry. Both parties are well-known citizens of Pateville. Both have been married and raised a family of children. It is understood that the primary cause of the breach was the opposition of Mr. Jarboe's children to the contemplated union.

Not Encouraging.

"Do you know," remarked the pessimist, "I think I have experienced every kind of hard luck on the list except hanging."

"Well, you shouldn't be discouraged," remarked the optimist. "Remember the old adage, 'While there is life there is hope.'"—Cincinnati Enquirer.

W. C. T. U. National Convention.

Cincinnati, Nov. 13.—The thirtieth annual convention of the Woman's Christian Temperance Union began a session of six days here to-day with a very large attendance, the five hundred delegates constituting only a small part of the visitor. At 8:30 a. m. prayer meetings and conferences were held. Mrs. E. J. Ziegler, an evangelist, was the leader of the opening devotional exercises.

ABNEY'S GLASS OF MILK.

An Amazing Story of the Famous Artist's Boyhood Abuse.

In the days when Edwin A. Abbey, the distinguished illustrator and painter, was a small boy he had the habit of critically scrutinizing every dish that was set before him at the table, much to the embarrassment of his family. His frequent disquisitions from the table were but ineffective reproofs, and something had to be done to work a cure.

"Edie," said his mother one day, "I heard thee speak about going to Cousin Martin's for dinner next Sunday, and I am afraid we will have to make thee stay at home until thee learns politeness at the table. Thy picking at food would mortify me."

This threatened deprivation reduced the boy to tears, and after he had solemnly promised not to look at everything according to his habit he was told that he might go.

The day came, and a large and merry family gathered to do justice to a tempting meal. Each of the little folks had a glass of delicious rich country milk at his place.

Noticing that Edwin was surreptitiously glancing at his glass, Mrs. Abbey observed, "Edwin, why art thou not drinking the milk?"

With a determined air the boy hastily picked up the glass and, shutting his eyes as tight as possible, gulped its contents.

This sudden deprivation attracted the attention of all the guests, and, fearing at least a severe scolding, the boy exclaimed, "I did it, mother; I swallowed it."

"Those two flies that got in my milk. But I swallowed them, mother; I swallowed them!"—Lodore Hedges in Ladies' Home Companion.

FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy that the baby was sucking it would no doubt cure the child. This they did and cured the baby." This remedy is for sale by Short & Haynes.

A Hard Road. "The way of the transgressor is hard," quoted the earnest citizen. "It is unquestionably," answered Senator Sorghum. "It was proven to have to employ lawyers and stand investigations is calculated to cut down profits terribly."—Washington Star.

That Was All. "Maria," demanded Mr. Billus in a loud voice, "what have you been doing with my hair?" "Nothing," said Mrs. Billus, "except sharpening it again after shaving it off with a razor. It's all right, isn't it?"—Chicago Tribune.

Beginning to Realize It. "I never heard of Dismore acknowledge that he was growing old before today."

"How did he acknowledge it?" "He announced that he felt just as young as he ever did."—Detroit Free Press.

Still Out. "Tess says she's ready to make up if you will," said the peacemaker. "Till her," replied the obstinate Jess. "If I had a complexion as muddy as hers I'd be ready to make up too."—Philadelphia Press.

SOLEMN AND IMPRESSIVE

Were the Confirmation Services Held at St. Rose's Catholic Church Wednesday.

OVER FORTY WERE CONFIRMED.

Confirmation services were held at St. Rose's Catholic church last Wednesday morning by the Right Reverend Bishop McCloskey, of Louisville. The sacrament of confirmation was administered by Bishop McCloskey to forty-two members of the church, about thirty of whom were boys and the rest girls. Bishop McCloskey was assisted in the services by Father Edwin Drury, of Knottsville, Father Aloysius Meyerling, of Brown's Valley, and Father Celestine Brey, pastor of the church. The special music and singing for the occasion was very appropriate and beautiful and the ceremony of a sweetly solemn nature. The services began about 9 o'clock and continued until about 11 o'clock. The services began with high mass at 9 o'clock. During high mass the choir, accompanied by Miss Ella Poppan on the organ and Mr. Will Mattingly on the violin, sang Bettman's mass in F in Latin. At the offertory, during high mass, a beautiful rendition of Ave Maria, according to the music of Cavalier Rustian, was given after the communion. At the close of high mass, Miss Florence Lewis, accompanied by Miss Poppan on the organ and Mr. Mattingly on the violin, sang Holy City in English.

High mass was followed by an appropriate sermon from Father Drury. Bishop McCloskey arrived on the 10-09 train from Louisville and was driven in a carriage at once to the church. As he entered the church the choir sang Veni Creator Spiritus in Latin. When they finished Bishop McCloskey made a talk to the children. The administering of the sacrament of confirmation by Bishop McCloskey, assisted by Fathers Drury, Meyerling and Brey, was a very solemn and impressive ceremony. The bishop extended his hands over each of the confirmands, as they knelt before him, and prayed that the Holy Ghost might come down upon them. Then he made the sign of the cross on the forehead of each one with holy oil, which is olive oil mixed with balsam and blessed by the bishop on Holy Thursday every year. After the confirmation the choir gave a splendid rendition of the beautiful English hymn, "Lead, Kindly Light."

At the close of the services, before leaving the church, all who had been confirmed were led in prayer by Father Brey for the grace of perseverance. This service is called confirmation because it strengthens or confirms the soul with divine grace, and is a sacrament in which baptized persons receive the Holy Ghost, that they may steadfastly profess their faith and lead upright Christian lives. The confirmation is a sacrament instituted by Jesus Christ, which indeed, to use

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for skin diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their method of cure.

"I was a great sufferer for six years and doctors did not receive any benefit," writes Mrs. J. W. Davis, of Louisville, Ky. "I had given up all hope when I received your 'Favorite Prescription' and followed your advice. I have now ten children, all in good health, and I am now regular after having the head and hair of two years and suffered with pain in the head and hair. I was so nervous and could not sleep. Now I can thank you for my recovery."

Don't hesitate to write to Dr. R. V. Pierce, chief consulting physician to the Institute of Don't and Surgical Institute, at Buffalo, N. Y. If you want good medical advice from a fully qualified physician as to your personal good health. Such letters are always answered free of charge and confidential. A medicine which has outlasted all others for women in the past century and being recommended by all those who have used it, is a good remedy to be so. Dr. Pierce's Favorite Prescription is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscles and weaken the system. Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself.

FEMALE WEAKNESS

903-1-2 Congress St. Portland, Maine, Oct. 17, 1903. I consider Wine of Cardui superior to any doctor's medicine I ever used and I have written I speak. I suffered for nine months with suppressed menstruation which completely retarded me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell and I could not stand. I naturally felt discouraged for I was unable to beyond the help of physicians, but Wine of Cardui cured me. I feel better than I have felt a change for the better with a woman. I am now regular and without pain. Wine of Cardui is simply good and I wish that all suffering women knew of its good qualities.

Autumn is nearly past and nothing has been done to celebrate Cloverport's centennial. The occasion should be observed and it is still not too late. For a while there was a plan on foot to celebrate the centennial with a regatta and a big parade of floats, representing the industries of the town. The scheme was to be planned and put on its feet by the young men of the town. This was the talk, and it fell through. The question now is who can be secured to celebrate the centennial. We would suggest that local judges, the Masons and the A. O. U. W. have contributed their part of the material for the amusement and benefit of the community, through a barbecue and old fiddlers' contest, respectively. It's now up to the Sir Knights to do their part.

What has become of the Breckenridge County Farmers' Institute? There was none last year and there will be none this year. It's too late for one this year and for that reason there should be a large delegation of Breckenridge county farmers at the Perry county (Ind.) Farmers' Institute, which will be held at Tobinsport December 4 and 5. The good farmers have issued a hearty invitation to the farmers of Perry and Breckenridge and all should attend. Next year Breckenridge county should have a farmers' institute by all means. Nothing helps the farmer more than to get together with his neighbors and exchange ideas for the betterment of their methods of husbandry. Breckenridge county is entitled, like other counties, to an institute for farmers, and a certain sum is set aside every year for this purpose by the state, each county being given the necessary funds to pay the expenses of an institute. The state also provides a number of good speakers, who are experts in their department of husbandry. The farmers' institute held in this city a number of years ago is said by many to have been the best they ever attended. The farmers realize the benefit of the institute to them and they should look into the matter and see that they get what is due them—and that next year.

There is a big chance awaiting the investor in this city next year. A combined ice factory, electric light and waterworks plant would be a paying investment. It would cost a big sum to finance the thing, but the profits would, in a few years, remunerate the investor. The location of more industries and more people here points to the fact that the improvements named above are becoming more and more needed, and will be established here soon. It's the investor who takes the matter in hand first who will reap the benefits.

THE STALEY STORK.

His Immense Power on the Wing and His Lack of Voice.

In Holland the nests of storks are generally on the summit of a tall post, put up on purpose for the bird which is fixed an old cart wheel. Says an English writer: "A Dutch gentleman of my acquaintance has one such post in his grounds within sight of his library window, but he improves on the cart wheel by having an iron framework for the reception of the nest. The first year it was put up, toward the end of June, a solitary young stork used to come daily and inspect this framework. I saw him there nearly one day, standing in the empty receptacle exactly like a would-be Benedict inspecting an empty house, contemplating the view and wondering if the drains are all right. The verdict was apparently favorable, for next season saw the nest occupied by the newly wedded pair. Their power of wing is very fine, and on hot days I have watched them ascending spiral circles, hardly moving their broad, black wings, till they have looked no bigger than flies. After the young are hatched they appear to be suspicious of one another and unwilling to leave the nest unguarded."

Storks have no voice. The only noise they make is "klapping" (snapping their great red mandibles rapidly and loudly). Thus they greet one another, generally by throwing back the head until the upper mandible rests on the back, but occasionally "klapping" is performed with the head and bill in the former position.

A Practical Demonstration.

"See this valve," said the officer. "You will always have to open that before turning the faucets for the shower. Should you fail to open it you will get no water."

"Are you sir," said the sailor, standing at attention, with a solemn look. The officer, fearing that his explanation might not be understood, stepped under the shower and turned on both faucets.

Some one had opened the lower valve, and when the young officer opened the faucets the water came down through the shower in a deluge, soaking his uniform.

Still standing at attention and with the most respectful look of interest in the proceedings of his superior officer, the sailor watched the practical demonstration of the working of the faucets, never allowing a smile to cross his face.

"I think I understand the workings of it now, sir," he said.—Chicago Record-Herald.

Shoes.

Considerable difference will be found in the wearing qualities of two pairs of shoes of the same quality and make worn by different persons. Shoes worn continuously in the house and outdoors will never give as much wear as if worn one day and left to rest a day. "I saves money to wear cheap house shoes within doors and let the shoes worn outdoors rest and get into shape. Keep an old pair of shoes to wear under rubbers. The perspiration of the feet which India rubber excites ruins good leather. Select strong oakskin and keep it well oiled in winter for outdoor wear. Low shoes are better for house wear, because they permit ventilation. The land is free from many of the ills of the foot because of its continuous exposure to the air.—Boston Budget.

Peculiarities of Worms.

Many creatures supposed to have some of their "senses missing" are not so insensitive as people often think. Worms have neither eyes nor ears and yet are sensitive to light and music (vide Darwin's "Earthworms"). A bluebell, in spite of not having a nose, finds out a patch of bad mud almost easily enough. In short, many of the lower animals contrive to see, hear, taste or smell sufficiently for their purpose, and often in a high degree, without being able to point to any special organs of these senses in their bodies, and to suppose they are devoid of a sense because we are unable to discover it is frequently to confess our ignorance.

FOILING A HIGHWAYMAN.

The Proper Thing to Do When Introduced to a Holdup.

A man who carries his money and his watch in his left hand will never lose a penny nor a timepiece in a holdup. The precaution, which is a perfect one, is so simple that few people have thought of it. Yet it has the sanction of the police, and its efficacy has been proved in more than one instance.

As soon as the citizen is confronted by the holdup man he will, if he has his money and his watch in his left hand, throw them on the nearest lawn or into the ditch. No highway robber has time enough to stop to look at them. There is no sense in carrying valuables in the right hand, because the first move of every accomplished holdup man is to grab his victim by the right arm. This movement is made to prevent the victim from reaching for a revolver.

The man who tries to draw a revolver while a holdup man is in front of him takes his life in his hands. If a citizen carries a revolver at all he should carry it in his right hand while in a dangerous street. His money and his watch should always be in his left. Then after he has thrown them away and the robber has departed, disarmed the victim can take his time about finding his property.

This simple plan disarms all the revolvers, sword canes, slingshots and brass knuckles ever invented and has the added beauty that it can be employed by a woman as well as by a man. To throw the purse or the watch away takes but a fraction of a second, and that isn't long.—Chicago Tribune.

Still Walkers of France.

In the south of France storks are a necessity to the people, who are mostly shepherds. They must walk on stilts in order to oversee their vast flocks of sheep as well as to pass through the

These shepherds—men, women and children—walk continuously on stilts from six to eight feet high. These stilts are merely fastened to the feet. Sometimes the stilts have uprights reaching as far as the knees and bound firmly to the legs.

Generally these shepherds and shepherdesses carry long poles, which they can use either as balancing poles or as supports—very long canes, as it were—reaching to the ground. They become so expert in stilt walking that it is no unusual sight to see a shepherdess striding along on stilts that raise her six feet above the ground, with her balancing pole strapped to her back and her hands busily knitting socks for husband, son or brother.

The complete unconcern with which these country folk make their way along on stilts is astonishing. One might almost say that the children have stilts given to them instead of cradles.—Washington Star.

Musical Tones.

A stringed instrument suspended in a favorable position near a pianoforte will sound when tones corresponding to the open strings are produced on the pianoforte. The volume of the answering tone will depend upon the atmospheric conditions, the quality and color of the surrounding tone and the sensibility of the responding material. There is a familiar anecdote told of a famous tenor who by singing the tone that was consonant with that of a wingless hawk made the glass shiver so violently that it would fall to pieces. It is because of this total sympathy that the cause of a harsh, rattling tone that may suddenly appear in a pianoforte is detected with difficulty. Though it may appear to be in the instrument, it is often far away and may come from a loose globe or pendant on a chandelier. Even a key in a door has been known to be the guilty cause.

There is one natural way to treat nasal catarrh; the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren Street, New York, will mail it.

His Master's voice. "George Ferguson," said his wife, looking with crushing scorn at the guilty rug he had bought at a special sale, "I wonder if ever in your life you knew a good bargain when you saw it?"

The case was critical. Mr. Ferguson saw that something bold and decisive must be done, and his mind worked quickly.

"Why, yes, Laura," he said. "When I wanted a wife I picked out the nicest, sweetest little woman in the world, sweetest little woman in the world, and I got the best bargain any man ever got. There, there, pet!"—Chicago Tribune.

There is nothing so important in facing severe cold weather as a well organized digestive force. When the stomach properly digests nutritious food it creates new, rich blood, fortifies the system against cold.

Waiter's Peptonized Port, to be found at all drug stores, is an ideal combination of pure rich port and the best quality of pepsin. It strengthens the weak digestive organs, restores the appetite, builds and tones up the entire system.

For invalids, convalescents and out-door people, there is nothing so beneficial as Waiter's Peptonized Port.—For sale by A. R. Fisher. Small size 50 cents, large size \$1.00.

Plant That Feigns Death. In South America there is a plant, a species of mimosa, which resorts to death feigning, evidently for the purpose of preventing grass eating animals from eating it. In its natural state this plant has a vivid green hue, but directly it is touched by a human finger or by any living animal it collapses into a tangle of apparently dead and withered stems. Among British wild plants the most sensitive to touch is the insectivorous sundew of English bogs.—London Globe.

On the Duties of Parents. "Tommy," asked his grandmother, "why would you rather be a little boy than a little girl?" "Because, grandma," replied Tommy, "I'd rather be a papa than a mamma. The mamma has to take care of the children. Let the papa just go to the office."—Little Chronicle.
